Dear Friends and Ayllumates,

The dream of bringing our dearest and most powerful shamanic friends together continues to bear fruit. This fall we co-create together, embodying our essence as Creators of the Universe.

We gather to create a synergy of focused energy and vision. To source the edges of our mythic imagination, bringing forth new stories and archetypes, that can inspire and assist our Awakening Universe. To Weave a New Global Tapestry for our world, that serves everyone in it. And to drink from the cup of energy that emerges when we are together, reaching for our highest spiritual selves.

You are warmly invited to join us for the September Equinox week. Bring your passion and vision for Pachamama, as together we engage the great turning over of our time. Pacha Cuti. Come join us at our home on the Oregon Coast.

Much love and blessings,  
*Wake and Kinlen*
