

# The Gathering of Shaman: Global Vigil Fire

Co-created by Wake and Kinlen Wheeler, and the Global Ayllu of trained Shaman, including our Q'ero brothers and sisters in Peru.

The Global Vigil Fire was created as a way for the growing number of trained shaman to focus at least twice a year and bring their energy and vision together. We call it Weaving the New Global Tapestry. We will bring together all our heart's desires, of what the world *CAN* be. We will join each other in the fire and offer this weaving of visionary threads out to the Universe to conspire and co-create with us. This Global Vigil Fire was created at the Gathering of Shaman in 2007, without knowing what the depth of the vision would bring. The first year we had 50 fire circles join us. In there were 150 fires, 2009 over 250 fires were held - individuals and groups connected in this beautiful dream. Our vision is to have representatives on each continent participating. Many of us feel this is the work we were born to do.

## Logistics:

The 3-day Global Vigil Fires begin on Friday morning around 10 am, from where ever the Gathering of Shaman is being held. It is tended 24 hours a day until Sunday around noon. The Gathering group will be participating in archetypal ceremonial work, offering this work to the fire, in order for new paradigms to become available to the world. We need the vision of everyone in order to create a tapestry of rich color and texture, a place where everyone can bring their gifts to the table.

You may participate for any length of time, and in any form you wish.

Some people gather together in small groups, others prefer to dream in personal meditation. Some have a large bon fire, others a small fire, others create an alter with candles. Some use sacred drama to help shift heavy energy for the collective, some play music, dance, sing, etc... This is your opportunity to create a gift for the world and send it out in your own unique way.

## What we have noticed in doing world work:

As with most shamanic work, we have found that it is important to work through our selves, and be careful not to project on to the earth. It is important that if we feel the earth has been damaged, that we look for that damage within and use our shamanic tools to work with it there. Then offer that work to the fire.

We have also found that if you have done much of your personal work, you have already contributed to the cleansing of energy in the world. It is now time to plant new seeds, nurture them, and dream big. All gardens have little weeds, but if we use our time always weeding, we have just barren ground. We need to spend most of our time planting and tending the seeds of our vision.

World Map: In the Spring of 2009, Don Cameron helped us create a Cyber Map where everyone can see all the fires that are weaving.
