

Mesa Wisdom

Developing our Medicine through the
Mysteries of Textiles and Stone

An ancient tradition and art form, the carrying of personal medicine bundles or mesas offers assistance in our pathway of personal growth. How do the stones work for us? What do the textiles speak? And how do they help us develop our "Medicine" or Shamanic Artistry?

Join us for the day in ceremony with stones and cloth; learning the mysteries that have been passed down through generations of shaman and weavers.

We are delighted to be in Co-Creation with Fred James and coming to work with each of you in Canada.

Blessings,
Wake and Kinlen Wheeler
