Dear Friends and Ayllumates,

Come to Mexico to experience the indigenous past. Take part in the individual and archetypal process, accessing the gifts of the Maya and ancient civilizations that foresaw the changes that we are living through.

Enter into the world of Quetzalcoatl, our guide through the Aztec realms. Then to the great and fertile jungle, where Pachamama shares the fullness of her journey. Sense the next phase through initiations with the Lacandon shaman, in the ancient Mayan temples. Take the journey "reaching backwards into death" with Pacal, in Palenque.

We will honor and release the old ways, open ourselves to the visions and possibilities of the future, and bravely step in to 2012, cleansed, refreshed, and carrying the visions that will anchor our pathway forward.

Join us for this deep visioning adventure in Mexico!  
With much love and blessings,
