Northern Scandinavia is a land of wild indigenous souls, of hearty people called the Sami, and of vast open spaces where the Midnight Sun creates a celebration of Light across the expansive sky.

Together we will embrace the land, source for ourselves what Pachamama offers the human soul here. We'll meet current shamans of our tradition, and people who steward the Sami's ancient ways. We'll witness and take part in the Sun's annual feeding of the Crown of Pachamama, infusing us all with the light of pure creation. As we source more deeply, and anchor our own inner light, we can more fully walk that light in the world.

Come join us for this spirit filled adventure to the Northlands. Camp on the summer tundra, under the wide-open sky, drink the water of the mountain streams, search the fjords for Kuyas! And join the Fire Ceremonies, Spirit Journeys, as well as the Peace Rose Ceremony at the Northern most point of land.

Bring your heart's calling, your vision, your passion to offer into the Rainbow Fountain of Pachamama, allowing her to spread your love and compassion around the world.

We hope you will join us for the journey of a lifetime!
